

VAULTS & OUTER BURIAL CONTAINERS

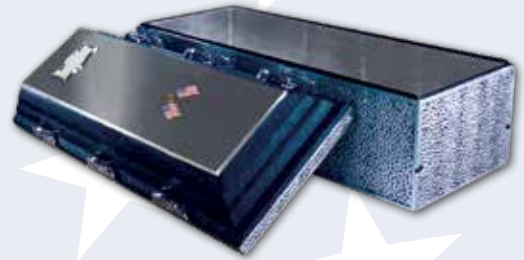

If you are choosing earth burial, in most areas of the country, state or local law does not require that you buy a container to surround the casket or the urn in the grave. However, many cemeteries require that you have such a container so that the grave will not sink or cave in. Either a graveliner or a burial vault will satisfy these requirements. *If choosing casketed burial in a National Cemetery, we will arrange for a concrete graveliner to be provided at no cost to the family.*
